

DEPARTMENT OF BUSINESS ADMINISTRATION

5- Year Research Plan 2025 to 2030

Planned and already completed research output in year 2025 is:

41 Journal articles
1 Book
1 Book chapter
3 Case studies
1 International Conference Paper
Total: 47

In the next 5 years, it is expected that about 150 research pieces would be produced. Out of that 25 are expected to be contributed by the 5 Business faculty members working at ITC. Each ITC researcher is required to produce 1 paper per year, so annual output is 5 and 5-year output is 25. The regular Business faculty is 50. 2 faculty members collaborating for 1 piece of research would mean 25 pieces per year of research output; and that translates into 125 pieces of output over 5 years (2025-2030).

Total planned output in the next 5 years is:

From ITC researchers: 25 pieces

From regular faculty: 125 pieces

Total: 150 pieces
